

Judah Free [Full-Stack Web Developer]

He/Him | Cary NC | judahjfree@gmail.com | (+1) 919-599-6491 | LinkedIn: @JudahFree

Education

August 2022 - July 2025 | Wake Technical Community College

AA - Advertising and Graphic Design

Learned Adobe CC, Web design, Graphic Design, creating Typography, git and Github, UI/UX logos, creating and maintaining brand Identities, and creating personas. Wake Tech taught me how to work with clients and communicate effectively to stay consistent with a brand's identity.

Work Experience

Aug 2024 - Present | Full Stack Engineer | Beale Street Software | Remote full-time

Full-Stack with an emphasis on Frontend development and Mobile optimization. I am working on the Event Manager Festi, which uses Ruby on Rails, SCSS, and HTML. This includes general contributions like bug fixes, working with stylesheets and Javascript, and improving the site's UI and UX. I work directly with the team and make sure to keep within Festi's brand identity and work to make the site feel more cohesive.
